Summary

Software engineering leader, Agile coach, product strategist, and AI systems architect with 15+ years of experience across healthcare, EMS, SaaS, logistics, consulting, and full-stack product development.

Experienced in technical leadership, coaching, mentoring, key performance indicators, stakeholder collaboration, and delivery systems that improve timely, high-quality software delivery.

Top Skills

Management | Agile Methodologies | Product Management | Artificial Intelligence (AI) | Software Development

Technology Stack

Next.js, TypeScript, Prisma, Clerk, Stripe, Vercel, Sanity, Postgres, Redis, React, .NET, Azure DevOps, cloud systems, and automation.

Professional Experience

Software Engineering Manager, Medical Solutions, Full-time, Nov 2022 - Present, Omaha, Nebraska, United States, Remote

Leading engineering teams building healthcare solutions. Responsible for team structure, delivery cadence, architecture decisions, coaching, mentoring, key performance indicators, and cross-functional execution with product, QA, and design.

Owner, Housebound Hounds, Jan 2019 - Jul 2025, Omaha, Nebraska, United States
Owned and operated a business, strengthening founder-level experience in operations, customer workflows, prioritization, service quality, and practical business execution.

Application Development Manager, Fusion Medical Staffing, Full-time, Jun 2020 - Nov 2022, Omaha, Nebraska, Hybrid

Managed the application development lifecycle from planning through deployment while establishing Agile practices, code review standards, quality gates, and release predictability.

Senior Software Engineer, Team Lead, Fusion Medical Staffing, Jun 2019 - Jun 2020, On-site
Led technical delivery and team execution while contributing hands-on across software design, implementation, review, and developer mentorship.

Full-Stack Software Developer, Werner Enterprises, Full-time, Sep 2014 - Jun 2019, Greater Omaha Area

Built full-stack software across front-end and back-end systems, developing the engineering foundation that later supported leadership, product, and architecture roles.

Founder, Solution Consultant, Lyncstream, Self-employed, Oct 2012 - Sep 2014, Omaha Metropolitan Area

Founded and delivered solution consulting work, combining client discovery, product thinking, UX, technical implementation, and business development.

Education

Western Governors University - Bachelor of Science (B.S.), Computer Science
Kirkwood Community College - Associates, Graphic Communication Technologies

Licenses and Certifications

Google Cybersecurity Specialization - Google, issued Mar 2024
